

# Introducing Biocomposites

# Deep expertise in calcium compounds and specialty polymers

Biocomposites is an international medical device company that engineers, manufactures and markets world leading products for use in infection management.

Based in Keele, UK with operations around the world, Biocomposites is a leading developer of innovative calcium compounds and specialty polymer products for surgical use.

Today our products are used in over 1 million procedures every year.

## The Biocomposites story

Trusted around the world to transform outcomes and change lives

1 Million

Patients benefit from our products every year

573

Peer reviewed papers, presentations and posters featuring STIMULAN

2

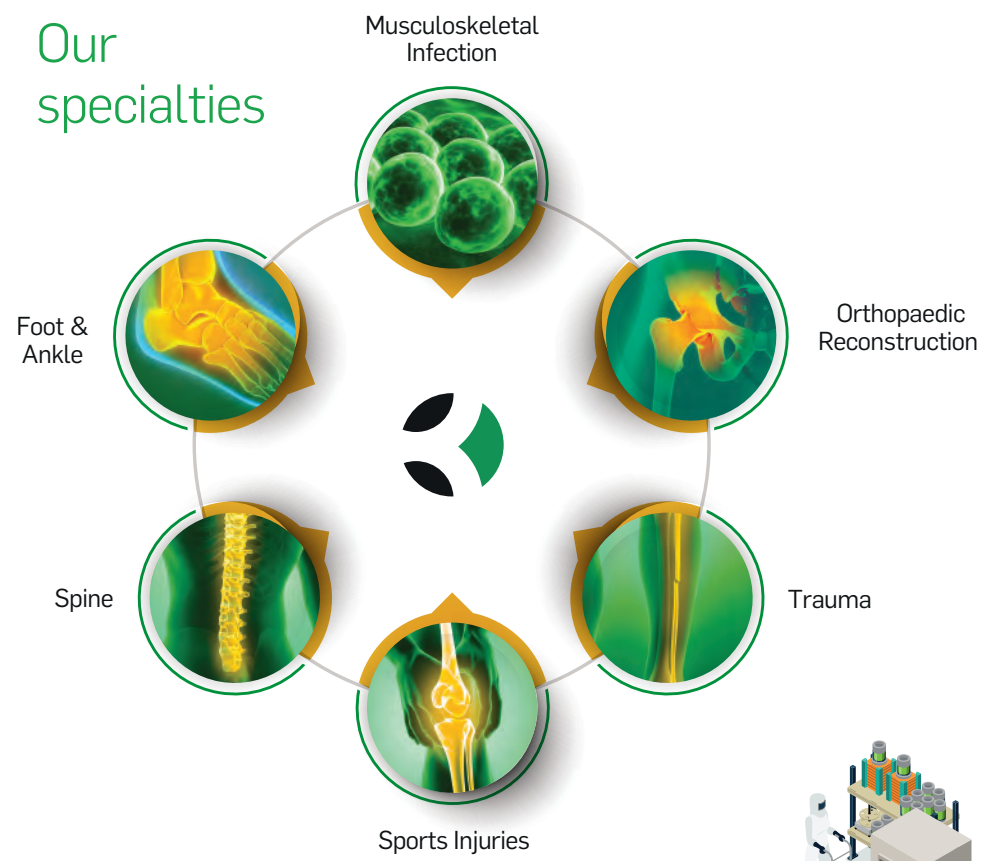

Queen's Awards for Enterprise in Innovation and International Trade

100

Countries receive our products

Our specialties

Dedicated to the quality of our people, processes and distribution

550+

Specialists in 10 countries

5

Purpose built clean rooms in UK, Germany and Argentina manufacturing 1.4 million units of products each year

2

FDA clinical trials underway for treating diabetic foot osteomyelitis and stage IV pressure ulcers

# Pioneering products for use in bone and soft tissue infection

- Innovative approaches to infection management
- Deep expertise
- Dedicated to quality
- Over 35 years' experience of Bringing Calcium to Life®
- Based in Keele, UK – with global operations across Europe, USA, Argentina, Canada, China, India, and Australia

bringing  to life®

# Our products

## STIMULAN

Truly absorbable calcium sulfate uniquely recrystallized for use in the presence of infection

## genex®

An innovative, versatile synthetic bone graft that supports natural healing and vanishes without a trace

## NanoBone®

Next generation nanostructured bone graft substitute for remodeling bone defects rapidly

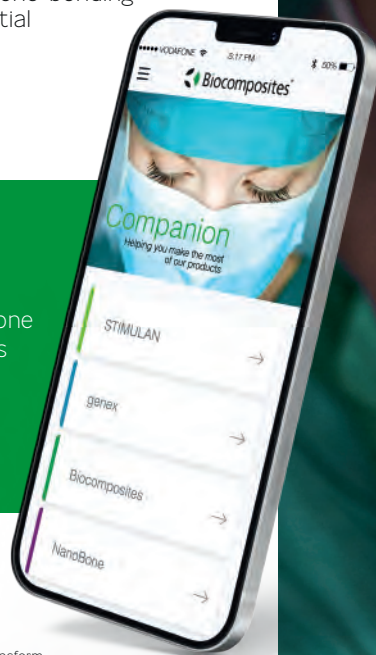

## Biosteon®

Osteoconductive calcium phosphate composite with improved strength retention and bone-bonding potential

## The Biocomposites Companion

Your essential guide to making the most of our products – all in one straightforward app. From surgeons' tips to how-to videos, this is the expert support tool you need, right at your fingertips.

To download your Biocomposites Companion, simply scan the QR code.
